

EOP max² PLUS Heat Exchanger

The turnkey solution to save energy

MAIN FEATURES

- ◆ Synchronizing of fresh water and waste water (time & volume)
- ◆ Temperature and pressure sensors
- ◆ Pre-assembled kit for fresh water connection to guarantee proper installation
- ◆ Multi-language and simple on-site customization
- ◆ Optional 7" touch screen display with a user friendly graphic
- ◆ End of pipe installation optional

BENEFITS

- ◆ Monitoring of water temperature, pressure, flow and pH
- ◆ Real-time alarms & Reports
- ◆ Visualization of trends and KPIs
- ◆ Calculation of actual energy recovered and savings
- ◆ Possibility to export data (USB)
- ◆ Possibility to automatically correct the pH of the waste water and adjust the water flow to maximize the energy recovery
